## TO WHOM IT MAY CONCERN

**RE: AUSSIE ROCK SCENE**

I can confirm that David Loosemore and his team have completed a number of large landscaping projects for my companies and I can highly recommend David and his team to others who might need a highly professional landscaping firm.

Aussie Rock Scene did the landscaping at my Anchorage Point Residential Subdivision, Burns Point Ferry Road, West Ballina which required a high level of finish and expertise for this waterfront development.

Other projects completed by Aussie Rock Scene have included my Greenwood Grove Residential Subdivision and also the newly completed Ramada Ballina Hotel & Suites.

The Greenwood Grove project involved some complicated landscaping work as the land also included the preservation of some pockets of rainforest areas, together with some unique rock walls which have become a signature trademark of this rural residential subdivision.

David and his team also worked on the recently completed Ramada Hotel project under the supervision of the project builder Glenzeil. Again, Aussie Rock Scene produced a first class job to allow us to present an international standard hotel on opening. A feature at this project was the completion of a rock feature wall along the Fawcett Street frontage which added a great dimension to an otherwise plain street facing wall.

Yours faithfully,

**THE CONDON GROUP PTY LTD**
